Iñigo Manglano-Ovalle, *Drawings for Phantom Truck*, 2007

Reality exists only in our imagination, we make it ourselves. In this sense, any construction of reality is also a fiction. The difficulty is that the actions that we are taking in our manufactured reality have a direct impact in the real world on the other. This can lead to inconsistencies, unexpected contingencies and conflicts. Artists in the exhibition include Jacob Boeskov, Jeremy Deller, Thomas Demand, Beate Gütschow, Dirk Dietrich Hennig, Christoph Keller, **Iñigo Manglano-Ovalle**, Mikael Mikael, Ora-Ito, Walid Raad, Julian Rosenfeldt, Nat Tate, The Yes Men.
