PERCEPTION BY EL SEED IN CAIRO, EGYPT

"The Zareaeb community welcomed my team and I as we were family" explains eLSedd. "It was one of the most amazing human experience I have ever had. They are generous, honest and strong people. They have been given the name of Zabaleen (the garbage people), but this is not how they call themselves. They don't live in the garbage but from the garbage; and not their garbage, but the garbage of the whole city. They are the one who clean the city of Cairo."
